Classroom Lighting Upgrade Grant

Apply today for a NEST grant to completely upgrade lighting controls in one classroom and a stairwell to state-of-the-art. Take advantage of daylight harvesting and occupancy sensing controls that communicate wirelessly to switches.

The Award

- Up to thirty applicant sites, one award (one classroom upgrade) per college.
- Lutron ceiling-mounted occupancy sensor, Lutron daylight sensor, two 8-amp wall switches, and two gang wall-plates. In addition you will receive a new stairwell fixture with two wall-mounted occupancy sensors.
- Retail value \$1,600.
- Site consultation.

The Benefit

- A state-of-the-art lighting controls
- An opportunity to test advanced lighting controls prior to implementation of mandated Federal energy reduction regulations.
- Approximately 35% energy saving.
- Qualifies for Duke/Progress Energy rebates.
- Controls compatible with T-12, T-8, T-5 and LEDs.

The Qualifications

- Must complete installation within 45 days of delivery of fixtures and controls, or by 12/30/11
- Must be a North Carolina Community College
